

# HAFB COVID-19 FAQs

Travel/PCS - Updated 10 March 2022

*Squadron Commanders have the authority to waive the Travel ROM requirement for all members regardless of vaccination status.*

## **Q1: When I am off duty, can I travel outside of the local area?**

**A1:** When off duty, personnel must stay within the local area, which has been identified as CONUS where the member can return to base within one travel day. On a non-duty day, or when requesting leave, you can travel outside of the local area with a commander-signed risk assessment letter. Reference Q2 for more details.

## **Q2: If I plan to take leave, what steps do I have to take?**

**A2:** For travel outside the local area, check with your chain of command for your commander's risk assessment process.

## **Q3: How do I receive a COVID-19 Vaccination Letter?**

**A3:** Fourteen days after being fully vaccinated, Team Holloman members may submit their COVID-19 vaccination form and card for review and commander signature.

## **Q4: If I travel outside of the local area, will I automatically be put on Restriction of Movement?**

**A4:** If you intend to travel outside of the local area mitigation measures (for example, ROM) will be annotated on the signed risk assessment, if imposed by your commander. Children attending the Child Development Center who are traveling out of the local area require risk assessments to resume care, even if both parents are fully vaccinated. If a family is traveling together one letter with their names added may be routed. The child's ROM length, if any, must be annotated on the letter separate from the parents. For more ROM related details, please reference the ROM FAQs. Check with your chain of command for their specific risk assessment letter process.

## **Q5: I am an Airman who will be stationed at Holloman. What do I need to know before I arrive?**

**A5:** If you do not already have a sponsor, or are not in contact with someone from your gaining unit, please call the Holloman Public Affairs Office at (575) 572-7381. Your gaining chain of command will determine your ROM length, if any. For information related to restriction of movement, please reference the ROM FAQs.

## **Q6: We are projected to PCS to Holloman, but will our children be authorized to attend the CDC/Youth Center?**

**A6:** Yes, the CDC, Youth and School Aged Programs are operating as normal. Parents should request to be added to the waiting list by visiting <https://militarychildcare.com/>. For any questions not addressed in our directives or FAQs, please call Public Affairs at (575) 572-7381, or visit the "Family" tab at the top of <https://www.hollomanfss.com>.
